ICONES STIRPIVM,
S E V
P L A N T A R V M
T A M E X O T I C A R V M,
Q V A M I N D I G E N A R V M,

In gratiam rei herbariæ studiosorum in duas partes digestæ.

Cum septem linguarum Indicibus, ad diuersarum nationum vsum.

ANTVERPIÆ,
EX OFFICINA PLANTINIANA,
APVD VIDVAM ET IOANNEM MORETVM.
M. D. X C I.

CLARISS. DOCTISSIMOQVE
VIRO D. SEVERINO GOBELIO,
SERENISS. DANIAE REGIS DOCTORI MEDICO,
Christophorus Plantinus s. d.

*Q*UONIAM tu primus fuisti, vir praestantiss. qui me liberaliter prouocaueris, ut Icones Stirpium per classes; uti a Matthia Lobelio, Doctore Medico, singula videlicet congeneres ac sibi mutuo affines, digesta sunt; seorsum excuderem: nostra hac editio tibi merito debetur. Quam uti libenter tibi offero dedicoque; ita rogo ut contra eos, quibus forte ea non placebit, defendendam suscipias. Nam haud dubie erunt qui illam vel improbaturi, vel in ea quaedam desideraturi sint. quorum quidem nonnulli agre ferent quod ab ordine, quem Doctissimus vir D. Rembertus Dodonaeus S. Caesaris Maiestatis Doctor Medicus inchoarat, recesserimus; alij autem aliter: nec deerunt fortasse plures qui variarum linguarum appellationes unicuique Iconi additas maluissent. Illos autem rogatos velim, ut totius Operis ipsius D. Dodonaei; qui exemplar suum absolutum nostro prelo submitendum nobis non semel est pollicitus, atque ea de causa huc venturum crebris literis significauit; editionem expectent: in quo non dubito quin ipse sit eorum expectationi plene satisfactorus. His vero respondeo, hoc me Enchiridion cum solis nominibus Latinis edere voluisse, eo

potissimum nomine, ut cuius liberum sit, quavis lingua iconi nomenclaturam calamo
adscribere, ac præterea, quicquid libuerit, annotare. Nequis tamen de hoc nostro in-
stituto ac facto conqueratur, nos septem variarum linguarum Indices huic postrema
editioni addidimus. Obnixè autem rogo, mi Gobeli, siquid habes quod ad hoc de re her-
baria Opus illustrandum augendumq̃, convenire videatur, nobiscum communicare ne
tibi graue molestumq̃, sit. Postquam enim nos tantum iter capessere cœpimus, nobis
statutum est id prosequi; nec animus est ulla molestia ac sumptu defatigari quamdiu
nobis dabitur (id quod maximè desideramus) exequendi commoditas: uti breui me re
ipsa comprobaturum spero, tum quidem ex iam dicta Dodonæi Latina editione inte-
gra, in qua etiam non pauca erunt ab alijs non animadversa; tum verò ex Obserua-
tionibus Pannonicis, & alijs, Cl. V. Caroli Clusij; in quibus infinitæ plantarum à ne-
mine hætenus ad viuum representatarum figura, cum earum descriptione, conspicien-
tur. Superest porrò ut nostrum hoc officium boni consulas, atque alios rei herbariæ
studiosos, ut nos in tantis laboribus & conatibus iuvent promoveantq̃, mecum
hortêris ac stimules. Vale. Antverpiæ, ex officina nostra Typographica.
